

SAFETY DATA SHEET

1. Identification

Product identifier	Gold Prediluted Antifreeze/Coolant
Other means of identification	
FIR No.	189065
Recommended use	Engine antifreeze/coolant
Recommended restrictions	None known.
Manufacturer/Importer/Supplier/E	Distributor information
Company Name	Ford Motor Company
Address	Attention: SDS Information, P.O. Box 1899
	Dearborn, Michigan 48121
	USA
Telephone	1-800-392-3673
SDS Information	1-800-448-2063 (USA and Canada)
	fordsds.com
Emergency telephone numbers	
	Poison Control Center: USA and Canada: 1-800-959-3673
	INFOTRAC (Transportation): USA and Canada 1-800-535-5053
2. Hazard(s) identification	

Physical hazards Not classified. Health hazards Acute toxicity, oral Category 4 Reproductive toxicity Category 1B Specific target organ toxicity, single exposure Category 1 Specific target organ toxicity, single exposure Category 3 respiratory tract irritation Specific target organ toxicity, repeated Category 1 exposure **Environmental hazards** Not classified. Not classified. **OSHA** defined hazards Label elements

3. Composition/information on ingredients

Mixtures			
Chemical name	Common name and synonyms	CAS number	%
ETHYLENE GLYCOL		107-21-1	44 - < 50
2,2'-Oxydiethanol		111-46-6	0.2 - < 5
BORON SODIUM OXIDE (B4NA2O7), PENTAHYDRATE	Specific chemical identity and/or exact percentage (12179-04-3	0.1 - < 1 s been withbeld as a trade
4. First-aid measures	secret.		
Inhalation	Remove victim to fresh air and keep at rest in center or doctor/physician if you feel unwell.	a position comfortable for bre	eathing. Call a poison
Skin contact	Wash off with soap and water. Get medical at	tention if irritation develops a	nd persists.
Eye contact	Rinse with water. Get medical attention if irrita	tion develops and persists.	
Ingestion	Rinse mouth. If vomiting occurs, keep head lo Get medical advice/attention if you feel unwell		besn't get into the lungs.
Most important symptoms/effects, acute and delayed	Convulsions. Dizziness. Nausea, vomiting. Ab Prolonged exposure may cause chronic effect		piratory irritation.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and trea under observation. Symptoms may be delayed		m warm. Keep victim
General information	IF exposed or concerned: Get medical advice, (show the label where possible). Ensure that r involved, and take precautions to protect them attendance.	medical personnel are aware	of the material(s)
5. Fire-fighting measures			
Suitable extinguishing media	Alcohol resistant foam. Powder. Carbon dioxic	le (CO2).	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.		
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed. Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.		
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.		n in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do s	o without risk.	
Specific methods	Use standard firefighting procedures and cons	sider the hazards of other invo	olved materials.
General fire hazards	No unusual fire or explosion hazards noted.		
6. Accidental release meas	sures		
Personal precautions, protective equipment and emergency procedures	Avoid contact with eyes, skin, and clothing. Do and upwind of spill/leak. Keep unnecessary pe authorities should be advised if significant spil protective equipment and clothing during clea SDS.	ersonnel away. Ensure adequ llages cannot be contained. V	late ventilation. Local Vear appropriate
Methods and materials for containment and cleaning up	This product is miscible in water.		
containing and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.		
	Small Spills: Wipe up with absorbent material remove residual contamination.	(e.g. cloth, fleece). Clean sur	face thoroughly to
	Never return spills to original containers for re The miscibility and distribution of this product	in water has not been determ	
Environmental precautions	Avoid discharge into drains, water courses or	onto the ground.	

7. Handling and storage

Precautions for safe handling

Pregnant or breastfeeding women must not handle this product. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid contact with eyes, skin, and clothing. Do not breathe mist/vapors. Avoid prolonged exposure. When using, do not eat, drink or smoke. Do not taste or swallow. Provide adequate ventilation. Should be handled in closed systems, if possible. Observe good industrial hygiene practices. Wash hands thoroughly after handling. Wear appropriate personal protective equipment. For personal protection, see Section 8 of the SDS.

Store locked up. Store in tightly closed container. Store away from incompatible materials (see Conditions for safe storage, Section 10 of the SDS). including any incompatibilities

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. ACGIH Threshold Limit Components	Values Type	Value	Form
BORON SODIUM OXIDE (B4NA2O7), PENTAHYDRATE (CAS 12179-04-3)	STEL	6 mg/m3	Inhalable fraction.
	TWA	2 mg/m3	Inhalable fraction.
ETHYLENE GLYCOL (CAS 107-21-1)	STEL	10 mg/m3	Aerosol, inhalable.
		50 ppm	Vapor fraction
	TWA	25 ppm	Vapor fraction
US. NIOSH: Pocket Guide to	Chemical Hazards		
Components	Туре	Value	
BORON SODIUM OXIDE (B4NA2O7), PENTAHYDRATE (CAS 12179-04-3)	TWA	1 mg/m3	
US. Workplace Environmen Components	tal Exposure Level (WEEL) Guides Type	Value	
2,2'-Oxydiethanol (CAS 111-46-6)	TWA	10 mg/m3	
iological limit values	No biological exposure limits noted for t	he ingredient(s).	
ppropriate engineering ontrols	Use adequate ventilation to control airbourser operations generate a vapor, dust exhaust ventilation, or other engineering recommended exposure limits/guideline	and/or mist, use process er g controls to control airborne	nclosure, appropriate local
ndividual protection measures,	such as personal protective equipmen	t	
Eye/face protection	Wear safety glasses with side shields (c	or goggles).	
Skin protection			
Hand protection	Suitable chemical protective gloves sho The choice of an appropriate glove does features and is different from one produ	s not only depend on its ma	terial but also on other quality
Other	Wear appropriate chemical resistant clo	thing if applicable.	
Respiratory protection	If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, an approved respirator must be worn. Respirator selection, use and maintenance should be in accordance with the requirements of OSHA Respiratory Protection Standard 29 CFR 1910.134 and/or Canadian Standard CSA Z94.4.		ator selection, use and HA Respiratory Protection
Thermal hazards	Wear appropriate thermal protective clo	thing, when necessary.	
eneral hygiene onsiderations	Observe any medical surveillance requi measures, such as washing after handli smoking. Routinely wash work clothing	ing the material and before	eating, drinking, and/or

9. Physical and chemical properties

Appearance

Dhusiaal state	Liquid
Physical state Form	Liquid. Liquid.
Color	CLEAR YELLOW
Odor	None.
Odor threshold	Not available.
pH	8
Melting point/freezing point	< -32.8 °F (< -36 °C)
Initial boiling point and boiling	> 226.4 °F (> 108 °C)
range	× 220.4 T (× 100 C)
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	1.1
Relative density temperature	68 °F (20 °C)
Solubility(ies)	
Solubility (water)	100 %
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.

reactions	
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause damage to organs by inhalation. May cause irritation to the respiratory system. Prolonged inhalation may be harmful.
Skin contact	Based on available data, the classification criteria are not met. Prolonged skin contact may cause temporary irritation.
Eye contact	Based on available data, the classification criteria are not met. Direct contact with eyes may cause temporary irritation.
Ingestion	Harmful if swallowed.
Symptoms related to the physical, chemical and toxicological characteristics	Convulsions. Dizziness. Nausea, vomiting. Abdominal pain. May cause respiratory irritation.
Information on toxicological off	ierte

Information on toxicological effects

Acute toxicity

Harmful if swallowed.
