

# OE CORRECT REAR LEAF SPRINGS

**DETROIT SPRING, INC.**

New OE Design Leaf Springs-These springs have been re-created using original GM blueprints out of high quality SAE 5160 Alloy steel. These springs have details not found on just any replacement spring. Details such as: Ends of individual leaves roll-tapered; original style anti-squeak pads; original style clips; OEM front eye bushing. Plus these are not just 5 sizes fit all. We have identified 14 GM blueprints with Camaro applications and each one is represented below. Combine our price with these original features to what everyone else is offering and you'll never buy replacements again! Leaf springs are listed and priced each, however all leaf springs should be replaced in pairs.

**Simply stated EATON Detroit Spring, who has been manufacturing springs to OE specs since 1937, is the only source for the correct springs.**

Designed from  
original GM blueprints
